R900618435 PROPORTIONAL VALVE 4WRTE10W8-100L-4X/6EG24 TK31/A1M Bosch Rexroth

Reference: R900618435

Short description

R900618435

Description

The R900618435 PROPORTIONAL VALVE 4WRTE10W8-100L-4X/6EG24TK31/A1M is a high-quality industrial hydraulic valve, ensuring reliable oil flow direction control. With high precision due to the internal piston position retraction and nominal size 10, this original Bosch Rexroth product is perfect for industrial applications. Local support is provided by CreatX Technology SRL.
