R900975642 PROPORTIONAL VALVE 4WRGE10V1-100L-1X/210G2 4TK31/C1M Bosch Rexroth

Reference: R900975642

Short description

R900975642

Description

The R900975642 PROPORTIONAL VALVE 4WRGE10V1-100L-1X/210G24TK31/C1M is a high-quality industrial hydraulic valve, ensuring reliable flow direction control. With high precision due to the internal piston positioning, this original Bosch Rexroth product is perfect for demanding industrial applications. Nominal size 10 and symbol V1 ensure superior performance, while the integrated 24 VDC electronic components guarantee efficient operation. Enjoy local support through CreatX Technology SRL.
