R900975731 PROPORTIONAL VALVE 4WRTE10V50L-4X/6EG24TK31/A1M Bosch Rexroth

Reference: R900975731

Short description

R900975731

Description

The R900975731 PROPORTIONAL VALVE 4WRTE10V50L-4X/6EG24TK31/A1M is a high-quality industrial hydraulic valve, ensuring reliable flow direction control. With high precision due to the internal piston position retraction, this original Bosch Rexroth product guarantees superior performance. Nominal size 10, symbol V, and integrated electronic components of 24 VDC make it ideal for industrial applications. Enjoy local support through CreatX Technology SRL.
