R900976811 PROPORTIONAL VALVE 4WREE6E1-08-2X/G24K31/F1V Bosch Rexroth

Reference: R900976811

Short description

R900976811

Description

R900976811 PROPORTIONAL VALVE
4WREE6E1-08-2X/G24K31/F1V is a high-quality industrial hydraulic valve, ensuring reliable oil flow direction control. With remarkable precision due to the internal piston positioning, this valve is ideal for applications requiring precise control. Original Bosch Rexroth product, supported by CreatX Technology SRL, ensures local support and efficient repair solutions.
