R901102702 PRESSURE SWITCH HED 8 OA-2X/50K14KS Bosch Rexroth

Reference: R901102702

Short description

R901102702

Description

The R901102702 HED 8 OA-2X/50K14KS pressure switch is a high-precision hydraulic sensor, offering potential-free switching for currents from 1 mA to 2.0 A. This original Bosch Rexroth product, supported locally by CreatX Technology SRL, ensures high repeatability accuracy of less than 1% of the set pressure. With no hysteresis, it operates efficiently based on the set switching point. It includes a 50 bar micro-switch with an open/close function and a DIN EN 175301-803 device connector.
