R901235588 PROPORTIONAL VALVE 4WRTE10E100P-4X/6EG24ET K31/F1M Bosch Rexroth

Reference: R901235588

Short description

R901235588

Description

The R901235588 PROPORTIONAL VALVE 4WRTE10E100P-4X/6EG24ETK31/F1M is a high-quality industrial hydraulic valve, ensuring reliable flow direction control. With high precision due to the internal piston position retraction and nominal size 10, this original Bosch Rexroth product is perfect for industrial applications. Electrically operated with integrated electronics, it operates at 24 VDC. Enjoy local support through CreatX Technology SRL.
