R901322980 PROPORTIONAL VALVE 4WRTE25W8-350L-4X/6EG24 ETK31/F1V Bosch Rexroth

Reference: R901322980

Short description

R901322980

Description

The R901322980 PROPORTIONAL VALVE 4WRTE25W8-350L-4X/6EG24ETK31/F1V is a high-quality industrial hydraulic valve, ensuring reliable flow direction control. With high precision due to internal piston positioning, this original Bosch Rexroth product is perfect for industrial applications. The nominal size of 25 and W8 symbol ensure superior performance. Electrically operated with integrated electronics, it operates at 24 VDC. Enjoy local support through CreatX Technology SRL.
