R901342143 PROPORTIONAL VALVE 4WRTE25W6-220L-4X/6EG24 K31/F1V Bosch Rexroth

Reference: R901342143

Short description

R901342143

Description

R901342143 PROPORTIONAL VALVE 4WRTE25W6-220L-4X/6EG24K31/F1V is a high-quality industrial hydraulic valve, ensuring reliable flow direction control. With high precision due to the internal piston position retraction, this original Bosch Rexroth product delivers superior performance in hydraulic applications. The nominal size 25 and W6 symbol, along with integrated electronic components at 24 VDC, make this valve an excellent choice for local support through CreatX Technology SRL.
