Description

The R901361289 VT-HMC-1-1X/M-0-00/00 Hydraulic Control from Bosch Rexroth is an advanced digital regulator for electro-hydraulic axes. It significantly reduces commissioning time with application-specific functionality. The device is easily parameterized via standard Ethernet and allows backup/restore via SD card. Hydraulic motion control for one axis includes functions such as position, pressure, force, and speed, with continuous adjustment. Original Bosch Rexroth products are locally supported by CreatX Technology SRL, ensuring quality and reliable technical support.
