R901403913 PROPORTIONAL VALVE 4WRTE25V1-350P-4X/6EG24 K31/F1V Bosch Rexroth

Reference: R901403913

Short description

R901403913

Description

R901403913 PROPORTIONAL VALVE 4WRTE25V1-350P-4X/6EG24K31/F1V is a high-quality industrial hydraulic valve, ensuring reliable flow direction control. With high precision due to internal piston position retraction and nominal size 25, this original Bosch Rexroth product guarantees superior performance. Electrically operated with integrated electronic components, it operates at 24 VDC. Enjoy local support through CreatX Technology SRL.
