# **R901434789 SYDFED-2X/028R- PPA12N00-0000-A0ANVXX Hydraulic Control Bosch Rexroth**

**Reference:** R901434789

## **Short description**

R901434789

## **Description**

The R901434789 SYDFED-2X/028R-PPA12N00-0000-A0ANVXX pump system is an original Bosch Rexroth product, offering a maximum pressure of 280 bar and a nominal size of 28. It operates by adjusting the pivot angle and pressure, making it ideal for master/slave applications. Equipped with an A10VSO BR31 pump and digital OBE, this system ensures superior quality and local support through CreatX Technology SRL.
