R901437158 AUTOMATIC MANOMETER HED 8 OP-2X/630K35 Bosch Rexroth

Reference: R901437158

Short description

R901437158

Description

R901437158 AUTOMATIC MANOMETER HED 8 OP-2X/630K35 provides potential-free switching for currents from 1 mA to 2.0 A. Without hysteresis, depending on the set switching point, this Bosch Rexroth hydraulic sensor ensures high repeatability accuracy of $< 1\%$ of the set pressure. Equipped with a micro-switch for 630 bar and an open/close function, it is ideal for industrial applications. Original products are available with local support through CreatX Technology SRL.
