Description

R901441904 VT-HMC-2-1X/M-0-00/00 Hydraulic Control Bosch Rexroth is a digital regulator for electro-hydraulic axes, significantly reducing commissioning time through application-specific functionality. It is parameterizable via standard Ethernet and allows backup/restore via SD card. Hydraulic motion control for two axes includes position, pressure, force, and speed functions, with continuous adjustment (position/force or p/Q). Original products are locally supported by CreatX Technology SRL, ensuring superior quality and technical support.
