R901464907 PROPORTIONAL VALVE 4WRTE25W6-220L-4X/6EG24 EK31/F1V Bosch Rexroth

Reference: R901464907

Short description

R901464907

Description

R901464907 PROPORTIONAL VALVE 4WRTE25W6-220L-4X/6EG24EK31/F1V is a high-quality industrial hydraulic valve, ensuring reliable flow direction control. With high precision due to the internal piston position feedback and nominal size 25, this original Bosch Rexroth product is equipped with integrated 24 VDC electronic components. CreatX Technology SRL provides local support and repairs for this product.
