R901565893 PROPORTIONAL VALVE 4WRDE10V50L-6X/VXT/24A5 Bosch Rexroth

Reference: R901565893

Short description

R901565893

Description

The R901565893 PROPORTIONAL VALVE 4WRDE10V50L-6X/VXT/24A5 is a high-quality industrial hydraulic valve, ensuring reliable flow direction control. Featuring a nominal size of 10, symbol V, and integrated electronic components, it operates at 24 VDC. This original Bosch Rexroth product guarantees high precision through internal piston position retraction. Enjoy local support from CreatX Technology SRL.
