# **R901575002 PROPORTIONAL VALVE 4WRLF25W6-350LJ-4X/MPY0 0/24ND95 Bosch Rexroth**

**Reference:** R901575002

## **Short description**

R901575002

## **Description**

R901575002 PROPORTIONAL VALVE 4WRLF25W6-350LJ-4X/MPY00/24ND95 is a high-quality industrial hydraulic valve, ensuring reliable oil flow direction control. With high precision due to internal piston position retraction and nominal size 25, this original Bosch Rexroth product guarantees superior performance. Electrically operated with integrated electronic system and fieldbus, it operates at 24 VDC. Enjoy local support through CreatX Technology SRL.
