R901577030 PROPORTIONAL VALVE 4WRPF6V32S-3X/VGA/24ND90 Bosch Rexroth

Reference: R901577030

Short description

R901577030

Description

R901577030 PROPORTIONAL VALVE
4WRPF6V32S-3X/VGA/24ND90 is a high-quality industrial hydraulic valve, ensuring reliable oil flow direction control. With high precision due to the internal piston position retraction, this original Bosch Rexroth product is ideal for industrial applications. Nominal size 6 and symbol V ensure superior performance. Electric with integrated electronic components, it operates at 24 VDC. Enjoy local support through CreatX Technology SRL.
