3842305767 CONNECTING ELEMENT 52X52X37 Bosch Rexroth

Reference: 3842305767

00109669

Short description

3842305767

Description

The 3842305767 connecting element is a crucial corner piece for mounting wire mesh frames or surface elements. Designed for thicknesses up to 6 mm, this original Bosch Rexroth product ensures secure and efficient fastening. It is easily mounted on the exterior of the counter profile or in the groove of a sliding door profile Al 45. With local support from CreatX Technology SRL, you benefit from superior quality and quick repair solutions.
