3842518427 Profile Connector 8/50 Bosch Rexroth

Reference: 3842518427

Short description

3842518427

Description

The 3842518427 profile connector is an essential component for stable joining of 50 mm profiles. It requires no additional profile processing, ensuring efficient and stable frontal joining. An original Bosch Rexroth product, offered with local support through CreatX Technology SRL, guarantees superior quality and durability in use.
