3842520054 SPRING TRACTION 1-2 KG Bosch Rexroth

Reference: 3842520054

Short description

3842520054

Description

The 3842520054 spring traction mechanism, part of the Profile Accessories category, is designed to reduce unilateral and high loads on workers. It ensures ergonomic preparation of tools, such as pneumatic screwdrivers, through a spring and hose traction system. With adjustable load capacity and separation length, the mechanism is easily mounted at the workstation using a suspension element or rail. Compressed air supply is facilitated through the pneumatic bar, and the G1/4" connection ensures optimal connectivity. Original Bosch Rexroth products are available with local support through CreatX Technology SRL.
