3842520922 Cam Channel Cursor Bosch Rexroth

Reference: 3842520922

19498

Short description

3842520922

Description

3842520922 Cam Channel Cursor is an original Bosch Rexroth product, perfect for experimental structures with assembleable plate profiles. The 8 mm groove joining technique ensures superior quality and flexibility in use. The groove distance is 25 mm, and the groove size is 8.9 mm. We recommend using 3 sliding stones for each linear meter of profile. Enjoy local support through CreatX Technology SRL.
