## 3842529024 Damping Ring D30 Bosch Rexroth

**Reference:** 3842529024

### Short description

3842529024

### Description

The 3842529024 damping ring, an original Bosch Rexroth product, is an essential accessory for profiles. It prevents vibration transfer and allows defined discharge of tensions through a grounding material set. Superior quality and local support provided by CreatX Technology SRL ensure optimal performance and durability. Ideal for industrial applications, this damping ring is the perfect solution for your technical needs.
