3842532886 Roller Support D32SK L-300/50 Bosch Rexroth

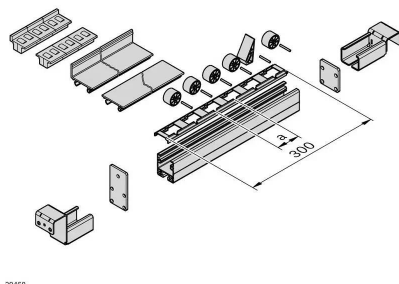

Reference: 3842532886

Short description

3842532886

Description

The 3842532886 D32SK L=300/50 roller support from Bosch Rexroth is a crucial component for manual transport sections, based on the multifunctional profile. Designed for D32 and D32SK rollers, it features a robust steel axle. The transport elements are click-in, adaptable for various needs, offering options with or without bandage rim in four colors for efficient object visualization. The support ensures superior quality and is available through CreatX Technology SRL, providing local support.
