3842535476 Economic ESD Table Plate 1000X555 Bosch Rexroth

Reference: 3842535476

Short description

3842535476

00120075

Description

The 3842535476 Economic ESD Table Plate 1000X555 is perfect for setting up Rexroth workstations, providing a versatile solution for various mechanical tasks. Available in Economic and Basic versions, this table plate can be configured with variable or fixed dimensions. The Economic plate is suitable for normal mechanical demands, while the Basic version, with a hard laminate coating, withstands high demands. Its features include resistance to friction, impact, scratches, and chemicals, as well as short-term thermal resistance up to 180 °C. ESD conductive, it ensures safe discharge of charges without additional wiring. Original products, local support through CreatX Technology SRL.
