3842535484 BASIC ESD Tabletop 1400X555 Bosch Rexroth

Reference: 3842535484

Short description

3842535484

00120075

Description

The 3842535484 BASIC ESD Tabletop 1400X555 is perfect for setting up Rexroth workstations, available in Economic and Basic versions. It offers superior resistance to abrasion, impact, and scratches, and is resistant to organic solvents, weak acids, alkalis, gasoline, and oil. With a hard laminate coating, it is suitable for high mechanical demands. Available in ESD conductive version, it ensures safe discharge of charges without additional wiring. Original product with local support through CreatX Technology SRL.
