3842535489 BASIC Table Plate 1000X555 Bosch Rexroth

Reference: 3842535489

Short description

3842535489

00120075

Description

The 3842535489 BASIC Table Plate 1000X555 from Bosch Rexroth is perfect for mounting workstations in Economic and Basic versions. It is configurable with variable or fixed dimensions and suitable for various mechanical tasks. The BASIC table plate is coated with a hard laminate, providing high resistance to friction, impact, and scratches. It is resistant to organic solvents, weak acids, alkalis, gasoline, and oil, and withstands temperatures up to 180 °C. Available in an ESD conductive version, it ensures safe discharge of electrical charges. Original Bosch Rexroth products are locally supported by CreatX Technology SRL.
