3842535662 GUIDE BEARING LF6S/C Bosch Rexroth

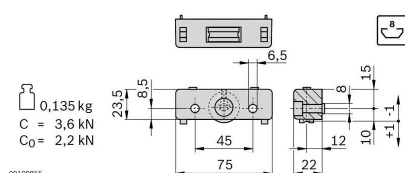

Reference: 3842535662

Short description

3842535662

Description

The 3842535662 LF6S/C guide bearing from Bosch Rexroth is an original product, perfect for constructing carriages. It features a bearing with an impregnated lubrication felt, ensuring optimal lubrication of the guide bar. The play-free adjustment of the rolling rollers is facilitated by eccentric bolts, and the rolling rollers on bearings are lubricated for life. Enjoy local support through CreatX Technology SRL.
