3842537657 XLEAN FIXING DEVICE Bosch Rexroth

Reference: 3842537657

Short description

3842537657

Description

The 3842537657 XLean fixing device is an original Bosch Rexroth product, perfect for covering open ends of small roller sections. It features a flexible bridge with a maximum inclination of 40° with round pipe D28 and 30° with profile D28x55. The transport path is made of steel profile with plastic rollers, available in ESD conductive version. Enjoy local support through CreatX Technology SRL.
