3842537779 ROLLER SECTION D28SK ESD L-4500 Bosch Rexroth

Reference: 3842537779

00121434

Short description

3842537779

Description

The small roller section D28SK, code 3842537779, provides an efficient transport path made of steel profile with plastic rollers. Available in ESD conductive version, this original Bosch Rexroth product ensures superior quality and local support through CreatX Technology SRL. Ideal for industrial applications, the section is self-supporting and easy to fix due to pre-existing holes.
