3842541228 Guide/Steering Roller D125 F Bosch Rexroth

Reference: 3842541228

00109721

Short description

3842541228

Description

Guide roller 3842541228, type D125 F, offered by Bosch Rexroth, is ideal for floor protection in sensitive ESD areas. Made of rubber with conductive execution according to DIN EN 61340-5-1, it ensures a leakage resistance of $\leq 10^6 \Omega$. The original product offers local support through CreatX Technology SRL and stands out for its versatility and excellent rolling properties. Includes a locking device to prevent movement and is compatible with M12 thread cutting devices.
