3842541236 GUIDE/STEERING ROLLER D125 Bosch Rexroth

Reference: 3842541236

00109722

Short description

3842541236

Description

Guide roller 3842541236, type D125, by Bosch Rexroth, is perfect for floor protection and suitable for ESD sensitive areas. The conductive material complies with DIN EN 61340-5-1, with a leakage resistance $\leq 10^6 \Omega$. This versatile roller, with excellent rolling properties, is ideal for profile processing, including M12 thread cutting devices. Original product, available with local support from CreatX Technology SRL.
