3842547838 Guide/Steering Roller D125 F ESD VPA Bosch Rexroth

Reference: 3842547838

00109721

Short description

3842547838

Description

Guide roller 3842547838, type D125 F ESD VPA, offered by Bosch Rexroth, is perfect for ESD-sensitive areas. Made from solid rubber, it ensures leakage resistance according to DIN EN 61340-5-1 with a resistance $\leq 10^6 \Omega$. Its design allows for elastic return to the original shape without long-term flattening, even over edges. This versatile roller offers excellent rolling properties and is easy to mount in the profile groove or profile pulling device. Original product with local support through CreatX Technology SRL.
