3842554450 45 45X45 CONNECTION SLEEVE Bosch Rexroth

Reference: 3842554450

Short description

3842554450

Description

The 3842554450 connection sleeve is an original Bosch Rexroth product, perfect for joining profiles at a 45° angle. This standard grey set requires no profile processing and features centering lugs for easy positioning. The centering lugs can be easily broken for mounting in the profile groove, making it suitable for frame stiffening and front or groove profile connections. Enjoy local support through CreatX Technology SRL.
