384255586 Double Connector 10 D17X60 Profile Accessories Bosch Rexroth

Reference: 384255586

Short description

384255586

Description

The double connector 384255586 D17X60 is an essential joining piece for right-angle connection of two profiles. It includes D17x60 bolts and is designed to withstand high loads, including torsion. Profile processing requires D11 and D17 through holes. Original Bosch Rexroth product, available with local support from CreatX Technology SRL, ensures superior quality and reliability in industrial applications.
