384255590 Double Connector 8/10 D11X30 Bosch Rexroth

Reference: 384255590

Short description

384255590

Description

The double connector 384255590, type D11X30, is a bolt-joining piece, ideal for right-angle joining of two profiles. With an 8/10 groove, this original Bosch Rexroth product is suitable for heavy loads, including torsion. Profile processing requires a D11, D17 through-hole. Enjoy local support through CreatX Technology SRL.
