3842557298 Oscillating Bearing D28L 1000MM Bosch Rexroth

Reference: 3842557298

Short description

3842557298

A = 4,4 cm²
I_x = 8,4 cm⁴
I_y = 8,4 cm⁴
W_x = 3,7 cm³
W_y = 3,7 cm³
m = 1,2 kg/m

34288

Description

The 3842557298 D28L 1000MM oscillating bearing from Bosch Rexroth is perfect for pivoting applications, featuring an additional thread for flexible angle adjustment. It allows axial movement along the D28L or D28L, N10 round tube, with the final position defined by the fixing ring. An original product, locally supported by CreatX Technology SRL, this bearing can be cut to the desired length for automatic mounting.
