3842563245 Lighting System SL24LED BASIC Bosch Rexroth

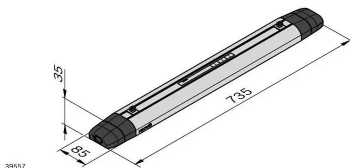

Reference: 3842563245

Short description

3842563245

Description

The SL24LED BASIC lighting system, code 3842563245, offers an efficient and versatile solution for ESD workstations. With a color temperature of 5000 K, this system allows quick and easy groove mounting, with direct wiring options for connecting additional lighting units. Powered by DIM-Box, it enables continuous light intensity adjustment. Original Bosch Rexroth product, available with local support from CreatX Technology SRL.
