3842563254 FIXING SET PLATE SL LED BASIC Bosch Rexroth

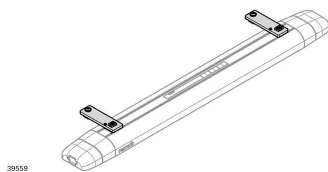

Reference: 3842563254

Short description

3842563254

Description

The 3842563254 fixing set for SL LED BASIC by Bosch Rexroth ensures easy and quick groove mounting, perfect for ESD workstations. It includes direct wiring options and supports power supply via DIM-Box, allowing connection of up to two SL 24 basic lighting systems or four SL 12 basic systems. Continuous light intensity adjustment is possible, and mounting is simplified by the included mounting socket. Original product with local support through CreatX Technology SRL.
