3842998258 ECOFLOW VARIABLE CONVEYOR RAIL Bosch Rexroth

Reference: 3842998258

Short description

3842998258

Description

The EcoFlow conveyor rail 3842998258 is an original Bosch Rexroth product, perfect for shelving systems and workstations. Made from U-profile aluminum, it provides rail support for suspension on pipe crossbars, facilitating material preparation. Continuous rollers, available in plastic, steel, or stainless steel, ensure cost savings by selecting large distances between rollers. Also available in ESD conductive execution, this conveyor rail stands out for its superior quality and local support provided by CreatX Technology SRL.
