3842998278 VARIABLE ECOFLOW CONVEYOR RAIL Bosch Rexroth

Reference: 3842998278

Short description

3842998278

Description

The 3842998278 EcoFlow variable conveyor rail is an original Bosch Rexroth product, perfect for material preparation at workstations and shelving systems. Made from U-profile aluminum, it allows manual linking of workstations with continuous rollers made of plastic, steel, or stainless steel. Save costs by selecting a large distance between rollers. Product available in ESD conductive version, with local support through CreatX Technology SRL.
