3842998350 WORKSTATION HV LIFT 410MM Bosch Rexroth

Reference: 3842998350

Short description

3842998350

Description

The 3842998350 WORKSTATION HV LIFT 410MM from Bosch Rexroth offers maximum flexibility with height adjustment and variable parameters. Its geometry and functionality can be customized, and the material intake height and table plate are independently adjustable. Available fully assembled or as a self-assembly kit, this original product can be complemented with subassemblies like crossbars and conveyor belts. Also available in ESD version, it complies with DIN EN 60204-1 standards for machine safety. Enjoy local support through CreatX Technology SRL.
