3842998383 VARIABLE LEAN CONVEYOR RAIL UNI Bosch Rexroth

Reference: 3842998383

Short description

3842998383

Description

The 3842998383 Lean Uni conveyor rail from Bosch Rexroth is an original product, providing versatile solutions for efficient object transport. Made from U-profile aluminum, it includes single-color rollers and roller elements with or without bandage rim, available in four colors for Kanban visualization. Additionally, sliding rails with or without integrated side guides are available, all of which are also available in ESD conductive execution. The product is ideal for manual linking of workstations, ensuring superior quality and local support through CreatX Technology SRL.
