8981535325 ECOSLIDE CARRIAGE 45X90X80 Bosch Rexroth

Reference: 8981535325

Short description

8981535325

Description

The EcoSlide Carriage 8981535325 is an essential accessory for profiles, providing an economical and efficient solution for horizontal applications. Designed for profile widths of 30/45/60/90, this carriage features an optional clamping lever for random position stopping and a linear push sled. The guide on slides allows for maximum load capacity, and the low moisture absorption slide is ideal for harsh conditions. Easy assembly and the compensation disc for tolerance balancing ensure optimal performance. The maximum push speed is 12 m/min, making it perfect for profile widths of 90 mm. Original Bosch Rexroth products are locally supported by CreatX Technology SRL.
