R911397103 SERVOMOTOR MS2N1 0-F0BHN-BMBH0-NNNNN- GM140N1005BN-NN Bosch Rexroth

Reference: R911397103

Short description

R911397103

Description

The R911397103 MS2N10-F0BHN-BMBH0-NNNNN-GM140N1005BN-NN servomotor from Bosch Rexroth offers more torque and higher speeds, with a practical single-cable connection and an extensive portfolio of options. This new generation motor combines high dynamics with compact dimensions and superior energy efficiency. Available with low and medium inertia rotors, optimally mass-customized. Ideal for intelligent solutions in the Industry 4.0 environment, serving as data sources. Benefit from local support through CreatX Technology SRL for original products and repairs.
