R911410292 Control Device Bosch Rexroth

Reference: R911410292

Short description

R911410292

Description

The R911410292 control device is a double-axis inverter from the ctrlX DRIVE series, powered by DC voltage, generating a controlled AC output for operating two motors. It is supplied from the DC bus of XVE2 or XVR2 supply units and/or XCS2 or XCD2 converters. It offers additional functions for demanding applications and can be expanded with ctrlX SAFETY for safety-related applications up to SIL3. Technical features include: free motor encoder selection, ideal machine adaptation, space-saving design, Plug & Play technology, and reduced cabling efforts. Original products, local support through CreatX Technology SRL.
