R911410475 Control Device Bosch Rexroth

Reference: R911410475

Short description

R911410475

Description

The R911410475 control device from the ctrlX DRIVE series is a double-axis inverter, powered by DC voltage, generating a controlled AC output for operating two motors. It is powered by the DC bus of XVE2 or XVR2 supply units and/or XCS2 or XCD2 converters. Offers optional function packages for demanding applications and can be expanded with ctrlX SAFETY for safety applications up to SIL3. Advantages: free selection of motor encoder, ideal machine adaptation, compact design, and Plug & Play technology. Original products with local support through CreatX Technology SRL.
