R911411261 CONTROL DEVICE XMD 2-W5454ANN-01NETT0ECNN- S03RSN2NNNN0NN Bosch Rexroth

Reference: R911411261

Short description

R911411261

Description

The R911411261 XMD2-W5454ANN-01NETT0ECNN-S03RSN2NNNN0NN control device from the ctrlX DRIVE series offers a compact and efficient solution for operating two motors. Powered by the DC bus of the XVE2 or XVR2 supply units, this double-axis inverter generates a controlled AC output voltage with variable amplitude and frequency. With additional options for demanding applications and integration of ctrlX SAFETY for safety-related applications up to SIL3, this original Bosch Rexroth product ensures ideal adaptation to machine requirements. Benefit from local support through CreatX Technology SRL.
