R911411458 Control Device XMD2 Bosch Rexroth

Reference: R911411458

Short description

R911411458

Description

The XMD2-W2323ANN-02NETM5ECNN-S03RSN2NNNN5NN control device from the ctrlX DRIVE series provides an advanced solution for operating two motors, generating a controlled AC output voltage with variable amplitude and frequency. Powered by the DC bus of the XVE2 or XVR2 supply units and/or the XCS2 or XCD2 converters, this device ensures maximum adaptability through additional command options for demanding applications. Technical features include optional multi-encoder interface, space-saving design, and single-cable technology for reduced cabling. Original Bosch Rexroth product, available with local support from CreatX Technology SRL.
