3842535666 SUPPORT BEARING LF12 Bosch Rexroth

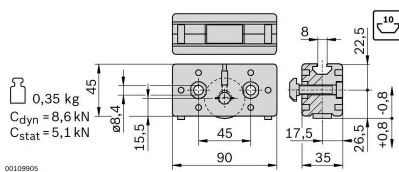

Reference: 3842535666

Short description

3842535666

Description

The LF12 support bearing, code 3842535666, is an original Bosch Rexroth product, providing efficient lubrication of the guide bar through the impregnated felt. The play-free adjustment of the rolling rollers and the possibility of changing the felt in the mounted state ensure optimal operation. The product is ideal for taking eccentric forces and supporting the guide rod, benefiting from local support through CreatX Technology SRL.
