3842539846 SOCKET STRIP 2S/H D Bosch Rexroth

Reference: 3842539846

Short description

3842539846

Description

The 3842539846 socket strip, type 2S/H D, from Bosch Rexroth, is a switchable input socket module offering two, three, or four sockets with protective contact. Its compact design saves space, and the GST output plugs ensure loop-through of electrical current. Ideal for fixed installation, it includes an RCD safety switch for additional protection. Original product with local support through CreatX Technology SRL.
